

## We simplify communication among parents, students and teachers

Communicate effectively and immediately with parents and students in real time.

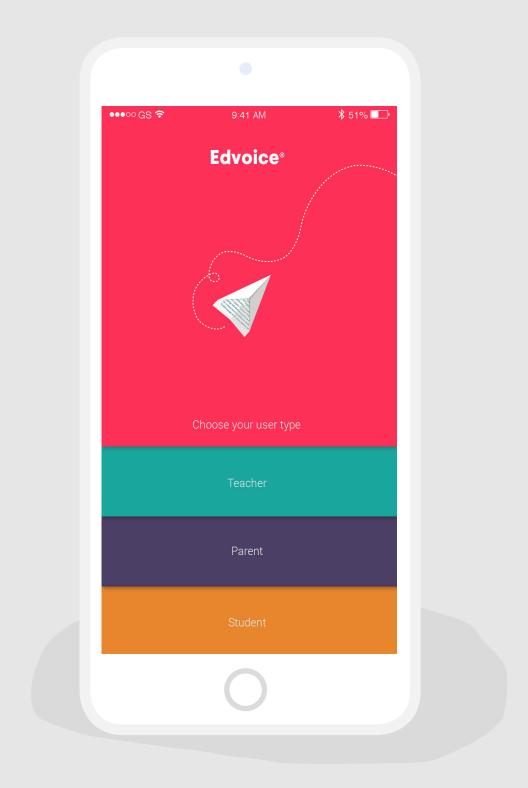

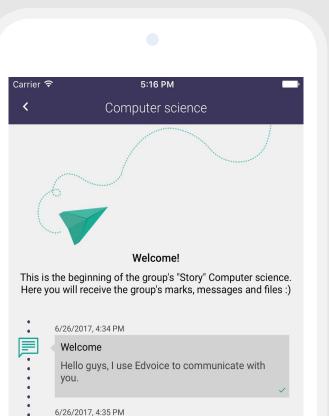

## ¿Why use Edvoice?

Edvoice is the easiest way to connect schools with families and students.

Edvoice brings the daily communication of your school to the devices you use every day.

Your school in your phone.

Welcome Hello guys, I use Edvoice to communicate with you. 6/26/2017, 4:35 PM Exam 1 results Good luck! 6/26/2017, 4:35 PM This is your exam result: 6.8 6/26/2017, 4:37 PM Discuss Hi John, I think that you can improve this result.

### **Stories**

They allow parents and students to receive notifications from teachers and the school to receive the latest news.

You can send text messages, marks, attendance reports, events, files and much more.

Families are fully informed about what happens in the classroom with a fast and useful communication channel.

# Individual and group chats

Individual and group chats allow fluent communication among teachers, the school and the students and their parents.

Unlike Whatsapp chats, these Edvoice chats can have rules, such as limiting the number of answers that can be sent or the response hours. 

#### Oops, you haven't enabled Edvoice in any group yet.

You have to enable Edvoice in the options of your Additio App groups or in the Edvoice control panel

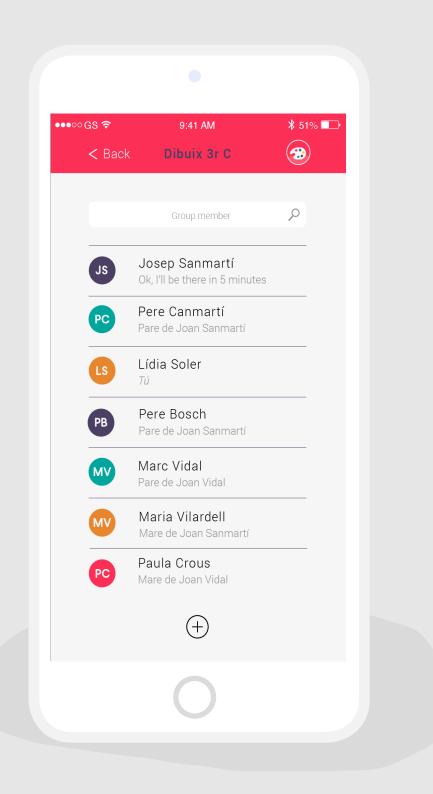

## Put an end to unread emails and fight bullying

You won't have to worry anymore about an important email from the school remaining unread or being filed in the spam folder.

Edvoice allows sending messages and notifications in a private and massive way.

You can also report bullying situations anonymously.

## Send instantaneous feedback to your students

Your students' families will be able to follow the daily progress of their children at school.

Foster collaboration in your educational community and motivate your students.

## How does it work?

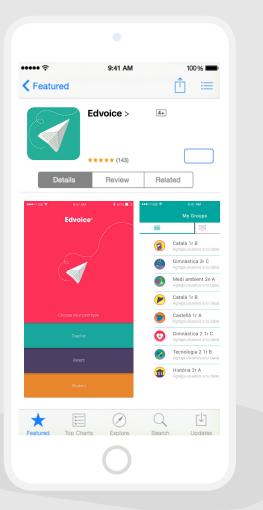

Download the application from the Apple Store or the Play Store.

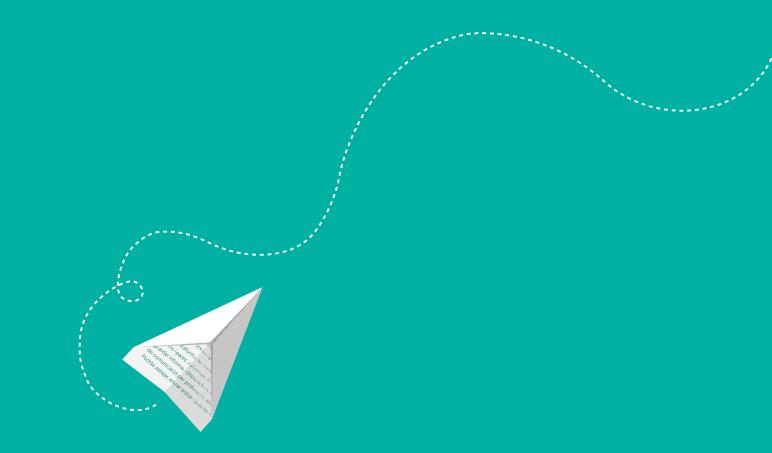

Sign up as parent or student from the app, or as teacher from the management panel.

Enter the code to join the group, with no need to share your phone number.
