

Edvoice

Important and exciting news :)
Our class is using Edvoice!

Dear parents,

This year I am using Edvoice to foster communication in our school community among families, students and teachers. Through the mobile application you can instantly share messages, updates, class photos and your child's attendance and grades from exams, assignments, and activities they do in class. It's the easiest way to see how your son or daughter is at school and get in touch with me.

I look forward to getting to know you and your child better this year. I hope that my Edvoice messages will make it easier for us to keep in touch more easily about everything that is happening in the classroom.

I would like all families to join me and use the Edvoice application! It can be used on any mobile device, it is very simple, safe and easy to use, available for iOS and Android and free for parents and students.

I will need your email to invite you to Edvoice, so it's an unique access code. The intention is for all families to complete the information and join as soon as possible.

If you have any question, please let me know. I'm always open to chat with you.

###

Learn more about Edvoice

Used by more than 1 million teachers and 4 million students, Edvoice is the most secure and simple communication application that helps to create the most close-knit school communities and encourages the development of their children.
